

CONSTRUCTION METHODS AND MATERIALS  
HOMEWORK 1  
CSI MasterFormat

Review the following video from the Smart Buildings Academy on MasterFormat:

<https://www.youtube.com/watch?v=8Jv5axdO7co>

Then go to: [https://www.arcata.com/divs/building\\_products.shtml](https://www.arcata.com/divs/building_products.shtml) (Links to an external site.)

Prepare a Report to include the following:

Part 1: Define MasterFormat

Part 2: Individual Assignment

1. You will be given a Division number. You will use that to select items from the category in the ARCAT link. In your answer you must use the following format:
  0. CSI MasterFormat Section # and Name
  1. Description of the usage of this product in your construction project
  2. Options Assessed for Your Project (Must have at least 2 options)
  3. Decision Criteria for selection
  4. Links to all information and/or additional information in your writeup of that section that were used to support your selection and would give specification to the construction team.

Part 3: Individual Assignment

1. Select a different Division number. You will use that to select items from the category. In your answer you must use the following format:
  0. CSI MasterFormat Section # and Name
  1. Description of the usage of this product in your construction project
  2. Options Assessed for Your Project (Must have at least 2 options)
  3. Decision Criteria for selection
  4. Links to all information and/or additional information in your writeup of that section that were used to support your selection and would give specification to the construction team.

Submission Requirements:

1. Submit your paper into the LMS as a .docx or .pdf file
2. Include your first and last names in your file name and “HW1”
3. Check all grammar and spelling in the document
