

CONSTRUCTION METHODS AND MATERIALS
Environmental Assessment Homework 3A
(Individual Assignment)

You will have one week to complete this assignment.

Part 1: Obtain a copy of the ASTM (American Society of Testing Materials) Standard 1527-21 "Standard Practice for Environmental Assessments" Phase One Environmental Site Assessments.

Part 2: Review the Site Assessment Questionnaire in the Standard, and list at least 5 questions presented there. Why you think this questionnaire is important? What is the purpose of the questionnaire?

Part 3: What is the minimum number of historical sources required for the Assessment by the Standard?

Part 4: List at least five (5) components of the Report that are required by the Standard.

Part 5: What is the definition of a Recognized Environmental Condition (REC)?

Submission Requirements:

1. Submit your paper into the LMS as a .docx or .pdf file
2. Include your first and last names in your file name and "Zoning Land Use 2B"
3. Check all grammar and spelling in the document
